WORK EXPERIENCE

IP Support at Huawei

September 2023 - September 2024 (Montevideo, Uruguay)

- Documented procedures, network configurations and issue resolutions.
- Configured and maintained IP/MPLS network equipment, each carrying over 40K+ users.
- Monitored daily network issues, ensuring quick incident resolution and peak performance.
- Improved security and resource efficiency of 300+ network devices by updating and patching software, resulting in a 20% improvement in resource consumption.

IT & Wireless Support at Huawei

September 2022 - September 2023 (Montevideo, Uruguay)

- Developed scripts to configure external alarms within 100+ radio base stations.
- Contributed in a vendor migration project, migrating 70+ radio base stations in 6 months.
- Provided technical support to end users, including hardware troubleshooting and system maintenance for major Internet service providers in Uruguay.
